▼ AMA new features request - table

	 Priority	 Feature Type	 Page /Area	 Feature / Issue	 Proposed Solution / Notes	 Link
1	High	New Feature	Application	Application feels long/intimidating	Add visible progress bar with "Takes 5 minutes" reassurance.	https://ama.nylinSure.com/#eligibility
2	High	New Feature	Cross Property	Collapsible Information Blocks	Show all available plans in a collapsible format for Mobile and AI-first optimization.	https://ama.nylinSure.com/#eligibility
3	High	New Feature	Cross Property	Sticky Shopping Cart with Pricing Total	Add a sticky footer cart showing pricing totals; improve e-commerce experience.	All / United Healthcare
4	High	New Feature	Cross Property	Reduce Required Fields	Audit and slim down required application fields; only ask for essential data.	https://ama.nylinSure.com/#eligibility
5	High	Current Feature Improvement	Cross Property	No clear product headline	Add headline and subheader emphasizing Life/Disability Insurance value.	https://ama.nylinSure.com/#eligibility
6	High	Current Feature Improvement	Cross Property	Trust signals buried at bottom	Move AMA sponsorship & A+ + ratings above the fold.	All

7	High	New Feature	Cross Property	Coverage options unclear	Add side-by-side comparisons or tooltips for product types (Disability, Step-rated, etc.).	https://ama.nylinSure.com/#coverageSelection
8	High	New Feature	Cross Property	Page too long	Break form into collapsible panels or progressive steps.	https://ama.nylinSure.com/#applicantInfo
9	High	Current Feature Improvement	Eligibility Page	Missing product info at top	Add intro about AMA Insurance & products tied to product parameters.	https://ama.nylinSure.com/#eligibility
10	Medium	Current Feature Improvement	Application	Progress bar bug (step cut off)	Fix sixth step visibility (Signature/Authorize step).	https://ama.nylinSure.com/#signature
11	Medium	Current Feature Improvement	Application	"I am a" unclear	Clarify to options like Physician, Resident, Retired Physician.	https://ama.nylinSure.com/#eligibility
12	Medium	New Feature	Coverage Page	Coverage page too long	Use collapsible dropdowns per product.	https://ama.nylinSure.com/#coverageSelection
13	Medium	New Feature	Cross Property	Need Help Widget	Add floating widget with specialist contact (call/email). Remove current Feedback button.	https://ama.nylinSure.com/#eligibility
14	Medium	New Feature	Cross Property	Lack of context post-coverage	Add side panel summarizing application product details & quote estimate.	https://ama.nylinSure.com/#coverageSelection
15	Medium	Current Feature Improvement	Cross Property	Generic navigation buttons	Replace with benefit-driven CTAs ("Check My Eligibility"); add top & bottom placement.	All
16	Medium	Current Feature Improvement	Cross Property	No reassurance messaging	Add microcopy: "Your info is secure", "Takes <5 minutes", "SSN encrypted".	All

27	Low	New Feature	Cross Property	No exit capture	Add exit-intent popup offering call scheduling.	https://ama.nylinSure.com/#eligibility
28	Low	Current Feature Improvement	Cross Property	Dense small-font text	Add spacing, bullets, and larger text.	https://ama.nylinSure.com/#coverageSelection
29	Low	Current Feature Improvement	Cross Property	"Other Coverage" section too legalistic	Simplify language; use Yes/No toggles.	https://ama.nylinSure.com/#applicantInfo
30	Low	Current Feature Improvement	Eligibility Page	Hover state uses confusing product name	Clarify hover state with correct product name + info.	https://ama.nylinSure.com/#eligibility
31	Low	Current Feature Improvement	Payment Info	Move payment to separate page	Separate payment to reduce form length and test impact on completion.	https://ama.nylinSure.com/#applicantInfo
32	Low	Current Feature Improvement	Payment Info	Add monthly payment option	Allow monthly billing choice.	https://ama.nylinSure.com/#applicantInfo
33	Low	Current Feature Improvement	Payment Info	Payment shown before approval	Add reassurance: "You won't be billed until approved" + lock icon.	https://ama.nylinSure.com/#applicantInfo

▼ Meeting notes - summarized

1. Collapsible Information Blocks

- Introduce **collapsible sections** to shorten mobile scroll length.
- Make collapsible sections **responsive to user interaction** for a smoother mobile experience.

2. Shopping Cart Experience

- Implement a **sticky shopping cart** that displays selected products and total cost.
 - Add a **toggle** for annual vs. monthly pricing.
 - Gather **visual references** from competitors (e.g., United Healthcare) to inform design decisions.
-

3. Application Process Simplification

- Conduct a **field audit** to identify unnecessary or optional questions.
 - Expand optional fields **only when selected** to visually shorten the form.
 - Consider keeping **administrative sections offline** to streamline the user-facing flow.
-

4. Product Headline & Trust Signals

- Add a **headline or short product description** tied to parameters at the start of the application.
 - Move **trust signals** (security badges, ratings, etc.) higher on the page.
 - Use **icons or badges** for emphasis.
 - Include an **intro section** with dynamic copy based on campaign or product parameters.
-

5. Coverage Page Redesign

- Fully **deconstruct and rebuild** the page for improved layout and usability.
 - Collapse coverage sections and use **compact Material Design components**.
 - Consolidate pricing into **one cumulative summary box** (like an e-commerce checkout).
 - Ensure the layout is tight, responsive, and scroll-efficient.
-

6. Progress Bar Enhancements

- Make the **progress bar** more prominent.
 - Display **numbers or percentages** to clarify progress across devices.
-

7. User Assistance Features

- Replace the feedback widget with a **floating help/contact button** for real-time advisor info.
 - Keep the button visible as users navigate pages.
-

8. Microcopy & Iconography

- Use icons (e.g., **shields**) to signal secure fields and reassure users about data protection.
- Visually emphasize legal disclaimers — e.g., **blue bars** or color highlights.
- Review **hover states** and **tooltips** for clarity and consistency.

9. Payment Options

- Clarify which payment methods support **monthly billing**.
 - Consider reintroducing a “**Bill Me**” option to reduce user hesitation.
-

10. Legal Language & Readability

- Review and simplify **insurance terms and legalese**.
- Collaborate with the contracts team to use **plain language** where possible.
